

St George's Report 2022

The year at St George's Hospital was dominated by covid. This put a lot more pressure on Hospital staff, as well as cut back visitors, as each patient was only allowed one visitor to see them while in the hospital. As a hospital we were not allowed to bring groups of people into the Hospital. This meant that our Chapel services had to be cancelled. We were not able to have a service in the hospital Chapel for 14 months. Our first service after covid was October 2022.

The annual Patronal service was held at All Souls, and attended by both Society members and hospital staff. The end of year Christmas Carols was able to be held at the hospital. An enjoyable evening, which was well attended.

Ministry at the hospital is enjoyable, and it's a privilege to be able to be there for Patients, Staff, Society members and families.

Blessings,
Rev. Jeff Cotton.
