
St George's Report.

As Chaplain at St George's Hospital, I think it's fair to say, we faced but overcame challenges in doing Ministry in 2021. Like everyone else we faced the problem of doing Ministry around covid19. Our monthly Chapel services were cancelled as from the start of September due to covid, although I did manage to keep in contact with many society members. Up to that stage, Chapel service were very well attended, and so was the Patronal service, celebrating St George's day. Doing services in the Chapel is always enjoyable and rewarding seeing the community come together.

I have found it encouraging working with the Hospital staff, and getting to know them, and being part of the community. I feel I will continue to grow amongst a great team at St George's.

Prayers and Blessings

Rev. Jeff Cotton.
